ENVIRONMENTAL SPECIALIST II

Code: 925200

Pay Grade: 21 (\$15.70 - 21.17/hr.)

Open for Recruitment: June 13, 2013 - Until Canceled

JOB DESCRIPTION

This professional level position performs scientific work in protecting the environment. As an Environmental Specialist II, you will investigate and evaluate the quality of air, water and land; and you will gain experience assessing technical information pertaining to related licensing, permitting or regulatory actions.

Typical duties:

- Investigates complaints and inspects facilities and projects to determine environmental violations and assess damage or impact.
- Drafts, negotiates, and presents permits, licenses, consent agreements, financial settlements, and associated documents.
- Coordinates plans and implements enforcement actions, environmental restoration, and contract work.
- Provides technical advice to industries and the public in matters relating to compliance with environmental laws, rules, regulations, and standards.
- Operates and calibrates monitoring and sampling equipment.
- Conducts on-site investigations and inspections, and determines the immediate or major impact of discharges to the environment.
- Testifies as an expert witness in court and at administrative proceedings.
- Designs and conducts studies to evaluate the environmental impact resulting from existing environmental problems or proposed projects.

MINIMUM REQUIREMENTS

In order to qualify for this position you must have a Bachelor's Degree from an accredited educational institution which includes 15 credit hours of science or engineering courses -OR- a four (4) year combination of education and experience in an environmental science or related area.
